Friday 8th January 2021

Dear parents,

Yesterday we received information from Essex County Council with regards to supporting families with internet/data access.

IF YOU HAVE AN INTERNET PROVIDER:

The suggestion is to contact your current internet provider, if you have one. Many companies including **BT, Virgin, Three and Vodafone** are offering free data to support children's learning.

IF YOU DO NOT HAVE A BROADBAND CONNECTION AT HOME:

As a school we can also make a request to increase your mobile data allowance on your behalf if you do not have fixed broadband at home or cannot afford additional data for devices. If this is something which may work for your household then please email miss.mawson@stebbingprimary.co.uk with the following details:

- the name of the account holder
- the number of the mobile device
- the mobile network of that device (for example Three)

It would appear that the following networks are supporting this scheme. But even if you aren't part of one of these please do still make contact as we can look into for you.

- Three Smarty Virgin Mobile EE Tesco Mobile Sky Mobile O2

Finally, if neither of these options are suitable we may be able to request a 4G wireless router.

If you would prefer to discuss this over the phone then please contact the school office 01371 856260.

Kind regards,

Miss Mawson

Headteacher
